
References

In this reference list the arrangement is alphabetical by author surname for works by sole authors and dual authors. Where there are references that include the first-named author with others, the sole-author works are listed chronologically first, followed by the dual author references (alphabetically) followed by the references with three or more authors listed *chronologically*. Chronological order is used within each group of identical authors.

Ahmed, S.T. (1987) Upper Oxfordian and Lower Kimmeridgian ostracods from the South Ferriby Quarry, South Humberside. *Proceedings of the Yorkshire Geological Society*, 46 267–74.

Aigner, T. (1980) Biofabrics and stratinomy of the Lower Kimmeridge Clay (U. Jurassic, Dorset, England). *Neues Jahrbuch für Geologie and Paläontologie, Abhandlungen*, 159 (3), 324–38.
