
WLGS 33 AND WLGS 34 Barbauchlaw Quarries [NS 9186 6825] and Barbauchlaw Burn Quarries [NS 9290 6907]

[WLC site description](#)

[Part of the Coal Measures Group sites](#)

Other designations: LWS (Barbauchlaw Burn); (WS (Barbauchlaw Glen); AGLV

Neither of these sites west of Armadale was visited but the Coalfield memoir indicates that a 10 m thick section of sandstones above Mill Coal (Lower Coal Measures) was formerly quarried here. It is recommended that these sites are visited when the opportunity arises.

(Figure 112) View south-west from Jock's Hill towards the volcanic vent of Carsie Hill [NT 0150 7547] (WLGS 35) (low hill in middle distance). Carsie Hill is also a Crag and Tail.

(Figure 113) Pyroclastic breccia in volcanic vent on Carsie Hill [NT 0150 7547] (WLGS 35).
