
Geodiversity Audit of Spireslack and Mainhill Wood Surface Coal Mines — contents

[Geodiversity Audit of Spireslack and Mainhill Wood Surface Coal Mines title page and preliminaries](#)

Foreword

Acknowledgements

Contents

Summary

[1 Introduction](#)

1.1 Aims and Objectives

1.2 Structure of the Report

1.3 What is Geodiversity?

1.4 Why Conserve Geological Features

[2 Geological background](#)

[2.1 Geological Conservation Review and SSSI Sites](#)

[3 Geodiversity Audit](#)

[Spireslack Locality 1: Lawmuir Formation](#)

[Spireslack Locality 2: Palaeogene dyke intruding mudstones and ironstones](#)

[Spireslack Locality 3: Fault zone with relay ramps in McDonald Limestone](#)

[Spireslack Locality 4 \(and 4b\): Palaeogene dyke network exposed on McDonald Limestone](#)

[Spireslack Locality 5: Shark spine fossil in McDonald Limestone Pavement](#)

[Spireslack Locality 6: Fault cut by dyke](#)

[Spireslack Locality 7 \(and 7b\): Complex fault zone in McDonald Limestone](#)

[Spireslack Locality 8: Seatearth with stigmara and tree casts](#)

[Spireslack Locality 9: Johnstone Shell Bed](#)

[Spireslack Locality 10: View of major fault](#)

[Spireslack Locality 11: Section through old mine workings with in-situ pit prop](#)

[Spireslack Locality 12: Sedimentary section through Limestone Coal Formation](#)

[Spireslack Locality 13: Cannel Coal](#)

[Spireslack Locality 14: Underground mine workings and dyke](#)

[Spireslack Locality 15: Calmy Limestone](#)

[Spireslack Locality 16: Till and peat section](#)

[Spireslack Locality 17: Devonian strata](#)

[Spireslack Locality 18: 'Area B1'—sedimentary architecture](#)

[3.3.1 Scheduled Monuments within Spireslack SCM](#)

3.4 Mainshill Wood Surface Coal Mine

4 Conclusions and Recommendations

[Appendix 1](#)

[Glossary](#)

[References](#)
