
Site no.: B9

Site name: Glen Gelder Quarry

Grid reference: [NO 24060 92663]

Locality: In Glen Gelder, c. 700 metres south-east of Princess Royal's Cairn

GCR Status: N/A

GCR No.: N/A

Type: Artificial Quarry Works

Description: One of several disused quarries in Glen Gelder which probably were the source of stone used in constructing Balmoral Castle.

Justification: Locally significant as probable source of building stone for Balmoral Castle. The rock is representative of the Lochnagar Granite Pluton (L2 component), hence the site represents the pluton and its parent unit, the Deeside Subsuite.
