## Site no.: Q14

**Site name:** Mega- roche moutonn e of Ralia

**Grid reference:** [NN 71266 96626]; [NN 70135 95426]

**Locality:** Creagan a' Choin and Ordan Shios, 2-3 km south of Newtonmore

**GCR Status:** N/A

**GCR No.:** N/A

**Type:** Landforms

**Description:** Two distinctive mega- roche moutonn e features, Creagan a' Choin and Ordan Shios, which unusually have tails of glacial till stretching south- westwards in the former up-ice direction.

**Justification:** Striking indicators of former ice flow during the last regional glaciation. Not to be confused with crag-and-tail features.
